Greetings To Our Friends; Old and New

Old Man Depression seems definitely on the retreat, and we look forward to this season with more optimism than for some years.

The weather has not been very considerate of gardens the past few years, but it is a long lane that has no turning and surely this season will be more favorable. The extreme heat and drought have had its effects on nursery stock, as well as private gardens, and this, with the increased demand is likely to result in a shortage of many kinds of plants. You may avoid disappointment by ordering early for shipment at proper planting time.

We offer our catalog as being sincere and honest in statements concerning size of plants, and as accurate in descriptions as possible. Considerable time has been spent in checking descriptions and we believe they are more complete and dependable than illustrations.

All plants are grown in soils of proper texture for the development of large, thrifty root systems.

All plants are transplanted and grown one or more years in open fields, insuring hardiness. We dig plants fresh for each order as we do not ship out of storage.

We use utmost care in packing and guarantee the plants to be in good condition upon arrival.

Most perennial plants thrive in a good garden soil, having adequate drainage. Some plants require special soil conditions and locations. Instructions for such plants will be given in the description of each variety.

If you have any problems concerning your garden, write us and we will be glad to be of service to you.

We Prepay All Shipping Charges

We are glad to continue this convenience and saving to our customers by prepaying all shipping charges.

THANKS

Accept our thanks and appreciation for your patronage. We take this method of acknowledging the many kind and complimentary letters we have received, and will spare no effort to continue to make every new and old customer a satisfied customer. We will appreciate any comments that will help us to give more satisfactory service.

LIST OF PLANTS

*Plants suitable for rock garden

ACHILLEA—Milfoil or Yarrow

Filipendula—Erect plant growing 4 to 5 ft. in height and having yellow blooms from June to Sept. Is suitable for cutting and border. Each 20c; 3 for 50c; 10 for \$1.50.

Millefolium Roseum (Rosy Milfoil)—Has rosy pink flowers in dense heads on stems 18 inches high, blooming from July to Oct. Very effective in border and used for cutting. Each 25c; 3 for 60c; 10 for \$1.75.

Ptarmica "The Pearl"—An erect plant growing about 30 in. in height and having pure white, double flowers all summer. Prized for cutting. Each 20c; 3 for 50c; 10 for \$1.50.

****Tomentosa (Wooly Yarrow)**—A compact plant with wooly-grey foliage which is excellent for rock garden. Has blooms of bright gold in June on 6 to 8 in. stems. Each 25c; 3 for 60c; 10 for \$1.75.

AGROSTEMMA—Rose Campion

Coronaria—Stout, erect-growing plant with bright rosy crimson flowers and silvery foliage which contrasts well with showy flowers. Thrives well in any ordinary garden soil. Grows 2½ to 3 ft. in height and is suitable for sunny border. Blooms during June and July. Each 20c; 3 for 50c; 10 for \$1.50.

AJUGA—Bugle Wort

***Reptans**—Dwarf, creeping perennial suitable for rock garden, edging or carpeting bare spots. Will thrive in good, ordinary soil in sun or shade. This plant grows 3 to 4 inches high and has deep purplish blue flowers blooming in May and June. Each 20c; 3 for 50c; 10 for \$1.50.

ALYSSUM—Madwort; Basket of Gold

***Rostratum**—Free-flowering and attractive perennial, a prostrate almost shrubby variety, hoary grey all over and having dense heads of yellow flowers. Does well in good, ordinary soil which is well drained. Can be used as edging in sunny border or in sunny spots in rock wall or garden. Blooms from May to July. Each 20c; 3 for 50c; 10 for \$1.50.

***Saxatile**—Masses of bright yellow flowers blooming early in April. An excellent plant for the rockery or front of border, growing 1 ft. high. Grows well in ordinary soil. Each 20c; 3 for 50c; 10 for \$1.50.

ANCHUSA—Alkanet

***Myosotidiflora**—Handsome dwarf perennial with clusters of bright blue flowers resembling forget-me-nots, blooming in May and June. Does well in deep, well drained soil in sun or shade. Plant grows 12 inches high and is very effective in rock garden. Each 20c; 3 for 75c; 10 for \$2.00.

ANENOME—Windflower

***Pulsatilla**—A plant of unusual, finely cut and wooly foliage for the rockery which grows from 9 to 12 inches high and produces large purple flowers during early spring. Plant in sun or partial shade. Each 25c; 3 for 60c; 10 for \$1.75.

Pulsatilla Rubra—A very unique plant 8 to 10 in. in height. Beautiful wooly foliage, with drooping reddish-purple flowers in early spring, make it a real asset to the rock garden. Each 25c; 3 for 60c; 10 for \$1.75.

ANTHEMIS—Chamomile

Tinctora (Kelwayii)—Free-flowering perennial with finely cut foliage and large yellow daisy-like flowers produced all summer. Suitable for border especially fine for cutting. Plant grows 2 ft. high and does well in any soil in a sunny position. Each 20c; 3 for 50c; 10 for \$1.50.

AQUILEGIA—Columbine

Canadensis (Common American Columbine)—Very graceful perennial with beautiful flowers, especially desirable for cutting. Can be grown in well drained soil, preferably in partial shade. Is excellent for the border, growing 3 ft. high and having blooms of soft yellow and red in May and June. Each 20c; 3 for 50c; 10 for \$1.50.

***Coerulea** (Rocky Mountain Blue Columbine)—The most lovely of all the Columbines. Large, blue long-spurred blossoms, with white corolla, are borne freely on the many branching stems. Plant in a well drained soil in partial shade. Blooms from May to July. Each 30c; 3 for 75c; 10 for \$2.00.

"Dreer's Long Spurred" Hybrids—Remarkably graceful perennial which has lovely, long spurred flowers in many shades of blue, purple, pink, red and yellow. Is ideal for the border, and flowers are highly prized for cutting. One of our finest strains. Each 25c; 3 for 60c; 10 for \$1.75.

ARABIS—Rock Cress

***Alpina**—A low growing rock plant which has silvery-green foliage and white blooms. It grows about 6 in. in height and blooms in early spring. Thrives in any good, ordinary soil that is not too wet. Each 20c; 3 for 50c; 10 for \$1.50.

***Billardeiri Rosea**—A striking new plant for the rockery. Plants are more compact, with shiny green foliage, and flowers of a beautiful rose color. Blooms in spring and is very valuable in the rock garden or for edging. Does well in sun or partial shade in any good garden soil. Each 30c; 3 for 75c; 10 for \$2.00.

ARMERIA—Thrift or Sea-Pink

Armeria Formosa Grandiflora Hybrida—A new introduction and prized for its hardiness as foliage remains green all year. Numerous ball-shaped flowers are borne on upright stems 16 inches high, in colors of pale and bright pink, coral red, violet and purple. Good for cutting. Requires sun and does well in ordinary good soil. Each 20c; 3 for 75c; 10 for \$2.00.

***Lauchiana**—Dwarf-growing perennial with grassy leaves and bright rosy red flowers which bloom in May and June. They prefer a dry, sandy soil and a sunny position. They grow from 3 to 6 inches high and are suitable for Alpine Gardens. Each 25c; 3 for 60c; 10 for \$1.75.

ARTEMESIA—Sage Family

Silver King—A striking, shrubby white-leaved contrast plant. Its beautiful silvery sprays are used for setting off bouquets. Pretty, planted in front of shrubbery. Thrives in ordinary soil and prefers sun; height, 30 inches. Each 20c; 3 for 50c; 10 for \$1.50.

ASCLEPIAS—Butterfly Weed

Tuberosa—A bushy border plant with brilliant orange flowers which bloom during July and August. It grows about 1½ ft. high. Flowers are lovely for cutting and last a long time. Thrives best in sandy soil. Each 20c; 3 for 50c; 10 for \$1.50.

ASTER—Starwort

***Alpinus rubra**—A very showy rock plant, producing rose-purple flowers in May and June. Does well in good ordinary soil but prefers lime and sunny position. Flowers are attractive for cutting. Height, 6 to 10 inches. Each 25c; 3 for 60c; 10 for \$1.75.

Novae-angleae (New England Aster)—A tall, branching border plant growing from 4 to 6 ft. high and having dark lavender blooms during Sept. and Oct. Grows in any ordinary soil; sun or light shade. Each 20c; 3 for 50c; 10 for \$1.50.

ASPHODELUS—Asphodel

Luteus—A strong growing perennial with tall spikes of bright yellow flowers; swordlike foliage. Is very fragrant. Does well in front of shrubbery, in the border or wild garden. Requires a deep, rich soil. Each 25c; 3 for 60c; 10 for \$1.75.

AUBRIETIA—Purple Rock-Cress

***Large Flowered Hybrid**—Free-flowering rock plant having all shades of violet and lavender flowers on 4 in. spikes. Blooms from early spring till summer. Thrives in any good, well drained soil. Each 25c; 3 for 60c; 10 for \$1.75.

BAPTISIA—False-Indigo

Australis—Has very attractive foliage and dark blue flowers on spikes 3 ft. high, blooming in June. Suitable for border or wild garden. Requires deep, rich soil and sun. Each 25c; 3 for 60c; 10 for \$1.75.

BELLIS—English Daisy

Perennis, mixed—A favorite for the garden. Used for edging on margins of the border or bedding. Beautiful, double daisy blooms on 6 inch stems in colors of white and pink. They prefer moist, partial shady positions. Each 20c; 3 for 50c; 10 for \$1.50.

BLEEDING HEART (See Dicentra)

BOCCONIA—Plume Poppy

Cordata—Very effective and ornamental plant for the background of the border. Tall growing, with greyish lobed leaves and feathery plumes of cream-colored flowers. A good rich garden soil is suitable. Each 20c; 3 for 50c; 10 for \$1.50.

CALAMINTHA—Calamint

***Alpina**—Useful plant for rock garden. Has rich purple flowers in summer. Does well in any good, ordinary soil, in sun or light shade. Grows 6 inches high. Each 25c; 3 for 60c; 10 for \$1.75.

CAMPANULA—Bellflower

One of the most popular and desirable hardy perennials for the border and rock garden. Dwarf varieties prefer partial shade while the others like sun. All varieties do well in ordinary rich soil.

Alliarefolia—A grand border plant having tall spikes with creamy white blooms in August. Height, 2 ft. Each 25c; 3 for 60c; 10 for \$1.75.

Amabilis—Very handsome novelty bell flower having dark blue blossoms, borne on 2 ft. spikes, in June and July. Very thrifty grower. Each 25c; 3 for 60c; 10 for \$1.75.

***Carpatica** (Carpathian Hare-bell)—A compact bushy plant, about 8 in. high. Blooms from May to September. Has blue or white flowers. Unexcelled as a rock plant. Each 25c; 3 for 60c; 10 for \$1.75.

***Garganica**—A beauty for the rockery. Grows in a low spreading tuft which in June is covered with a mass of star-shaped, light blue flowers having a white eye. Each 30c; 3 for 75c; 10 for \$2.00.

***Glomerata Superba**—Something new that should be in every garden. Grows about 20 in. high and has dark violet blooms from bottom of spike to top. Blooms in June and July. Excellent for rock or border. Each 25c; 3 for 60c; 10 for \$1.75.

Latifolia—An excellent border plant growing 2 ft. high and having an abundance of large heads of blue flowers. Each 25c; 3 for 60c; 10 for \$1.75.

Persicifolia Grandiflora Large Bell—Border plant having large, blue cup-shaped flowers on tall spikes. A prize for cutting. Each 30c; 3 for 75c; 10 for \$2.00.

Pyramidalis (Chimney Bell Flower)—Has spikes from 3 to 4 feet tall covered with blue star-shaped flowers, blooming in late summer. A most conspicuous and excellent border plant. Each 25c; 3 for 60c; 10 for \$1.75.

***Rotundifolia** (Scotch Harebell)—One of the finest plants for rock garden. Grows about 8 in. tall and has small rosettes of leaves at base of plant, with slender, wiry grass-like bloom stems of blue flowers from June to October (or frost). Each 25c; 3 for 60c; 10 for \$1.75.

***Turbinata**—The plant is compact in habit and very showy in the rockery. Grows 6 in. high and has lovely cup-shaped violet flowers. Each 25c; 3 for 60c; 10 for \$1.75.

CAMPANULA—Medium—Canterbury Bells

Medium (Single Canterbury Bells)—Tall, erect plants having large cup-shaped flowers of blue, pink or white colors. An excellent border plant and unsurpassed as a biennial. Blooms in June and July. Each 25c; 3 for 60c; 10 for \$1.50.

Calycanthemum (Cup and Saucer)—Tall plant growing 3 ft. high and having large cup and saucer-shaped flowers during June and July. Each 25c; 3 for 60c; 10 for \$1.50.

CARNATION—Hardy Border

Crimson King—A very hardy plant prized for its brilliant red flowers borne in clusters on 12 to 16 inch stems. Foliage is of bright green on bronze colored branches. Grows upright. Does well in ordinary soil. Each 30c; 3 for 75c; 10 for \$2.00.

"Grenaden" Mixed—One of the most useful and popular of perennials. A most brilliant bedding or cutting flower; blooms early in summer, having mixed shades of deep red, scarlet, pink and white. Will grow in ordinary good, light, well drained soil. Flowers are producer on 12 in. stems. Each 20c; 3 for 50c; 10 for \$1.50.

CATANACHE—Blue Cupidine

***Coerulea**—Border plant producing light blue blooms on 16 to 18 inch stems. Blooms all summer. Useful for cutting. Does well in good, ordinary soil, in a dry, well drained, sunny position. Each 20c; 3 for 50c; 10 for \$1.50.

CENTAUREA—Knapweed

Dealbata—A handsome border plant about 2 ft. in height, with striking rosy purple flowers, blooming in June and July. Will grow in good, ordinary soil in sunny position. Each 20c; 3 for 50c; 10 for \$1.50.

Macrocephala—A tall, upright plant, growing 3 ft. high and having large yellow blooms in July and Aug. Does well in good, ordinary soil in sunny position. Fine border plant and useful for cutting. Each 25c; 3 for 60c; 10 for \$1.75.

Montana—Perennial, growing 2 ft. high and bearing large, violet-blue flowers in early summer. Does well in good, ordinary soil in sunny position. Excellent border plant. Each 20c; 3 for 50c; 10 for \$1.50.

CHEIRANTHUS—Siberian Wallflower

***Allioni**—Lovely rock plant, having dense heads of fragrant, fiery orange blooms in May and June. Stems are about 1 ft. high. Plant in ordinary, well drained soil in sun. Treat as biennial. Each 20c; 3 for 50c; 10 for \$1.50.

CHRYSANTHEMUM MAXIMUM—Shasta Daisy

"Alaska"—Easily grown perennial with large, glistening white blossoms with yellow centers. Is of pyramidal bush growth attaining a height of 2 ft. Requires sun and well drained rich loam. Excellent for border and cutting. "Alaska" is one of best varieties. Each 20c; 3 for 50c; 10 for \$1.50.

Uliginosum (Giant Daisy)—Border plant growing from 3 to 4 ft. high and having large white blossoms with yellow centers, blooming from June to Sept. Requires a deep, rich soil and a sunny position. Each 25c; 3 for 60c; 10 for \$1.75.

CLEMATIS—Dwarf

Integrifolia—The bushy, herbaceous type of Clematis. The foliage is a beautiful green and porcelain blue flowers adorn the plant in mid-summer. Ideal in the hardy border. Requires a soil that is well drained and not too acid. Each 30c; 3 for 75c; 10 for \$2.00.

CONVALLARIA—Lily-of-the-Valley

Majalis—Plant having very fragrant white flowers blooming in May and June. Very good for using near shrubs and along shaded borders. For best results it should be planted in good, rich soil in shade. It is everybody's favorite and indispensable to the flower garden. Each 20c; 3 for 50c; 10 for \$1.75.

COREOPSIS—Tickseed

Grandiflora—A very attractive perennial for use in the border and for cutting, having golden yellow flowers in profusion throughout the summer. Height, 3 ft. Will grow in ordinary well drained soil and in full sun. Each 20c; 3 for 50c; 10 for \$1.50.

CRUCIANELLA—Crosswort

***Stylosa**—A plant of creeping nature that can be used for front of border and is excellent for rock garden. Has bright pink flowers on stiff 6 in. stems. Blooms early in summer. Prefers a light, well drained soil. Does well in sun or shade. Each 20c; 3 for 50c; 10 for \$1.50.

DELPHINIUM—Larkspur

This is probably the most popular flower grown. A stately plant which is unexcelled for the border. They are also very desirable for cutting. Delphinium like the sun and require good rich deep cultivated loam that contains lime. Must be planted with crowns level with soil surface.

Belladonna Improved "Cliveden Beauty"—The finest belladonna, growing 4 ft. high and having lovely light blue flowers blooming early and throughout the summer. Very graceful and especially good for cutting. Each 20c; 3 for 50c; 10 for \$1.50.

Bellamosum—Like the Belladonna except for having flowers of dark blue. Each 20c; 3 for 50c; 10 for \$1.50.

Bellamosum Elation Hybridum—An improved strain of Bellamosum, which produces taller spikes of bloom and flowers are much larger with longer spurs. Very valuable for cutting. Require the same soil as other strains. Each 30c; 3 for 75c; 10 for \$2.00.

"Dreams of Beauty" Hybrid—This is the finest we have ever seen. Has wonderful iridescent blooms ranging from lightest sky blue to deepest gentian blue, some orchid shades, both single and double, some with pink fillings. Will bloom all summer if not allowed to seed. Height 5-6 ft. Is unexcelled for beauty. Each 30c; 3 for 75c; 10 for \$2.00.

"Iceberg"—This is the true white Delphinium. Every lover of delphiniums should have a few plants of this strain. They are especially fine for cutting, and used to set off the blue of our well known blue varieties. They grow equally as well as the Belladonna and should be treated the same. Each 35c; 3 for 85c; 10 for \$2.50.

DIANTHUS—Pinks

Alpinus Allwoodi—This variety of pinks is about the finest ever seen. Have all the shades of deep red to light pink, some double, and very fragrant. Is a compact plant with grey green foliage, attaining a height of 6 to 8 inches. Flowers are borne on stiff stems of the various colors all summer. Plant in ordinary good soil, in sun. Each 25c; 3 for 60c; 10 for \$1.75.

Barbatus, mixed—One of the most popular flowers because of its mass of bright red and salmon colors, in early summer. Very desirable to every border. Blooms in upright dense heads on 18 inch stems. Biennial. Each 20c; 3 for 50c; 10 for \$1.50.

***Caesius (Cheddar Pink)**—A compact plant with dense tufts of glaucous foliage bearing sweet smelling rose colored flowers on 6 inch stems in midsummer. Easy grown and especially desirable for rock garden. Each 25c; 3 for 60c; 10 for \$1.75.

***Deltoides 'Brilliant'** (Maiden Pink)—A beautiful rock plant. Grows in prostrate tufts and bears a profusion of brilliant crimson flowers on 6 to 8 inch stems during June and July. Does well in ordinary good soil. Each 20c; 3 for 50c; 10 for \$1.50.

***Dentosus Hybrids**—A low growing plant suitable for border or rock garden, attaining a height of 12 in. Has mixed shades of lilac, red, and white flowers, blooming all summer. Is especially hardy and able to withstand heat. A favorite. Each 20c; 3 for 50c; 10 for \$1.50.

Knappi—A dainty, upright growing plant. Bears clusters of bright yellow flowers on 12 inch stems, all summer. Does well in a dry, sunny place. This is the only species of *Dianthus* having yellow flowers. Each 30c; 3 for 75c; 10 for \$2.00.

Latifolius Atrococcineas—(Double Sweet William) Has clusters of double scarlet flowers in summer. Excellent for border, growing upright to a height of 16 in. Each 20c; 3 for 50c; 10 for \$1.50.

***Neglectus**—Rock plant growing about 4 inches high. Is completely covered with deep rose flowers on upright stems. Grows in a compact tuft and is a gem for the Alpine garden. Each 30c; 3 for 75c; 10 for \$2.00.

DICENTRA—Bleeding Heart

Eximea (Plumy Bleeding Heart)—A most attractive border plant. Has beautiful foliage of fern-like leaves and is covered all summer with drooping heart-shaped red flowers. Is equally at home in full shade or sun and perfectly hardy anywhere. Very desirable. Each 25c; 3 for 60c; 10 for \$1.75.

Spectabilis—(Bleeding Heart)—An old favorite that is very attractive in any border. Has crimson blooms on arching racemes with graceful finely cut foliage. Blooms in spring. Hardy anywhere. Each 40c; 3 for \$1.00; 10 for \$3.00.

DIGITALIS—Foxglove

"**Giant Shirley**" **Hybrids**—(A biennial)—A very showy and attractive border plant having long bell shaped blossoms on tall spikes of 3 ft. Flowers range from white to deep rose with chocolate markings. Blooms from June to August. Will thrive in any ordinary soil in sun or shade. Each 20c; 3 for 60c; 10 for \$1.50.

DICTAMNUS—Gas Plant

Fraxinella—A most attractive border plant having glossy green leaves forming a very symmetrical plant which improves with age. During June the plant is covered with large well opened flowers of rose or white shades. Height, 2 ft. Requires a deep, rich, loamy, well drained soil in a sunny position. Each 25c; 3 for 60c; 10 for \$1.50.

DODECATHEON—Shooting Star

***Meadia**—Border or rock garden plant having beautiful clusters of lilac and pink blossoms on tall, slender stems in April to June. Prefers cool shady position in light loamy soil of acid content. Height, 1 ft. Very pretty. Each 20c; 3 for 50c; 10 for \$1.50.

DORONICUM—Leopardbane

Caucausicum—Very showy perennial. Large, bright yellow daisy-like flowers are borne on tall stems. Is prized for its early spring flowering, and invaluable for cutting. Plant in the border in any good soil in sun or partial shade. Each 30c; 3 for 75c; 10 for \$2.00.

DRACOCEPHALUM—Dragonhead

***Ruyschianum**—Plant very suitable for rock garden. A tufted plant growing 10 in. high, having bloom spikes with dark blue blossoms in July and Aug. Thrives in ordinary soil and partial shade. Each 25c; 3 for 60c; 10 for \$1.75.

ECHINOPS—Globe Thistle

Humilis Cyanea—Semi-dwarf plant with spiny foliage, woolly beneath and having globular, thistle-like flowers of bright blue in August. Grows 2½ ft. high. A very pleasing flower for the border or wild garden. Does well in ordinary soil in sun or light shade. Each 20c; 3 for 50c; 10 for \$1.50.

ERIGERON—Fleabane

Speciosus—Perennial having large, handsome purple flowers blooming in June and July. Border plant and excellent for cutting. Rather compact plant with blooms on 20 inch stems. Thrives in ordinary, fairly moist soil. Each 20c; 3 for 50c; 10 for \$1.50.

ERYSIMUM—Rock Wall Flower

***Pulchellum** (Fairly Wallflower)—A dwarf plant with heavy compact foliage. Used for edging, margin or borders and especially pretty in the rock garden. Fragrant, sulphur-yellow flowers are produced in late spring and summer. Grows well in ordinary soil in a sunny position. Each 25c; 3 for 60c; 10 for \$1.75.

EUPATORIUM—Hardy Ageratum

Coelestinum—A colorful border plant having fluffy heads of azure blue blooms from August to frost. Has upright stems growing from 12 to 18 in. Does well in ordinary soil, partial shade. Each 20c; 3 for 50c; 10 for \$1.50.

EUPHORBIA—Spurge

Corollata (Flowering Spurge)—Perennial resembling Gypsophila and may be used in same manner at a time Gypsophila is out of bloom. Grows with upright stems having white blossoms in August and September. Does well in ordinary soil in sunny position. Height 2 ft. Excellent. Each 20c; 3 for 50c; 10 for \$1.50.

***Cyparissias** (Cypress Spurge)—A compact border or rock plant growing 1 ft. high and having yellow blooms. Thrives in ordinary or poor soil. Looks like small cypress tree. Each 20c; 3 for 50c; 10 for \$1.50.

GAILLARDIA—Blanket Flower

Grandiflora "English Hybrids"—An excellent border plant having flowers with crimson petals tipped with yellow. Blooms all summer and fine for cutting. Thrives in ordinary loam in sunny position. Each 20c; 3 for 50c; 10 for \$1.50.

Burgundy—An improved strain of Gaillardia with deep wine flowers. Grows 2 to 3 ft high and blooms all summer. Very fine for cutting. You will like it. Each 25c; 3 for 60c; 10 for \$1.75.

GENTIANA—Gentian

Andrewsii—Exquisite Alpine perennial suitable for the border or rockery. Has clusters of tightly closed, deep blue flowers in July to Oct. Should be planted in rich, moist loam in partial shade. Each 25c; 3 for 60c; 10 for \$1.75.

***Cruciata**—The most easily grown variety of the Gentian family. Has clusters of small bright blue flowers blooming in August and Sept. Likes deep loam with leaf mold. Does best in a partially shaded location. Grows about 9 in. high and is suitable for border or rock garden. Each 25c; 3 for 60c; 10 for \$1.75.

GEUM—Avens

Coccineum, Mrs. Bradshaw—Very showy, free-flowering perennial, excellent for border and for cutting. Has large, double flowers of a fiery orange-red which bloom all summer. Does well in any ordinary soil in sunny position. Requires plenty of moisture. A very useful and attractive plant. Each 25c; 3 for 60c; 10 for \$1.75.

Lady Stratheden—The variety of great merit. A lovely border plant with attractive golden yellow flowers in summer on 16 in. stems. Thrives in ordinary garden soil and likes moisture. Excellent for cutting. Each 25c; 3 for 60c; 10 for \$1.75.

GLOBULARIA—Globe Daisy

***Cordifolia**—A dwarf-growing plant suitable for border margins or the rockery. Has globe-shaped blue flowers which rise above the rosettes of dark evergreen foliage. Blooms in June. Any ordinary rich garden soil and a sunny position are required. Height, 10 in. Each 25c; 3 for 60c; 10 for \$1.75.

***Tricosantha**—Tufted plant growing about 8 in. tall and very showy in the rock garden. It has evergreen foliage and blue flowers borne in globular heads. Likes the sun and any good, well-drained soil. Blooms in early summer. Each 25c; 3 for 60c; 10 for \$1.75.

GYPSOPHILA—Baby's Breath

Bristol Fairy—The newest of all Baby's Breath. They bloom throughout the entire summer. Large individual blossoms of the purest white are densely set on the large branching stems. A wonderful filler for bouquets. They prefer a good, well drained soil in full sun. Field grown grafted plants. Each 50c; 3 for \$1.35; 10 for \$4.00.

Paniculata—A favorite for the border and highly prized for cutting. Has a profusion of small, feathery white flowers on slender, branching stems, growing from 2 to 3 ft. high. Excellent for fillers. Thrives in any well drained and not too heavy soil. Blooms in June. Should not be disturbed when planted. Each 20c; 3 for 50c; 10 for \$1.50.

***Repens**—A prostrate and spreading rock plant having clouds of white flowers from June to October. Does well in loam with good drainage. Height, 6 in. Each 20c; 3 for 50c; 10 for \$1.50.

HELENIUM—Sneezewort

Autumnale Hybrids—A spectacular border plant growing 3 ft. high. Bronze and yellow flowers on well branched stems from July to September. Does well in ordinary sandy loam and sunny position. Each 20c; 3 for 50c; 10 for \$1.50.

Hoopesi—A branching border plant having deep yellow flowers very desirable for cutting. Blooms in June to July. Grows in ordinary soil in sunny position. Height, 2 ft. Each 20c; 3 for 50c; 10 for \$1.50.

HELIANTHEMUM—Sun Rose

***Mutabile Hybrids**—An excellent rock plant with evergreen foliage, growing in large prostrate clumps. Flowers range from all shades of pink to orange. Likes sandy well drained soil and sunny position. Height, 8 to 10 in. Blooms in June and July. Plant in permanent position. Each 20c; 3 for 50c; 10 for \$1.50.

HELIOPSIS—Orange Sunflower

Soleil d'or—Very attractive during midsummer when the well-branched plants are covered with large yellow flowers on long, wiry stems. Fine for cutting. They do nicely in a good well drained soil in full sun. Each 20c; 3 for 50c; 10 for \$1.50.

HEMEROCALLIS—Day Lilies

Flava—A favorite perennial belonging to the lily order. Grows 2 ft. tall and has coarse grassy leaves. Has fragrant, clear yellow flowers on tall stems, blooming in June and July. Likes rich, moist loam and partially shaded or sunny position. Excellent for border, waterside or naturalizing. Each 25c; 3 for 60c; 10 for \$1.75.

Fulva—(Tawny day lily)—Has beautiful bronzy orange flowers from June to August. Likes rich moist loam in sun or partially shaded position. Height, 4 ft. Very good for border, waterside or naturalizing. Each 20c; 3 for 50c; 10 for \$1.50.

HEPATICA—Liverwort

***Triloba**—The first flower to bloom in the spring. Ideal for shady part of the rock garden. Is a compact plant growing about 5 in. high, having pink flowers. Thrives in loam and leaf mold. Each 20c; 3 for 50c; 10 for \$1.50.

HESPERIS—Sweet Rocket

Matronalis, purple—An old and favorite garden flower, very fragrant. Will grow anywhere and attains a height of 2 to 3 ft. Suitable for wild garden, shrubbery or mixed border. Large heads of dark lavender flowers form showy spikes in June and July. Each 20c; 3 for 50c; 10 for \$1.50.

Matronalis, Alba—Same as above but having white flowers. Each 20c; 3 for 50c; 10 for \$1.50.

HEUCHERA—Coralbells

***Brizoides**—A graceful and free-flowering perennial suitable for borders, edging to walks, flower beds, and excellent for the rock garden. Flowers are pale pink and bloom on 18 inch stems. Requires a well drained, fairly rich soil in sun or part shade. Each 30c; 3 for 75c; 10 for \$2.00.

***Sanguinea**—Excellent rock or border plant growing about 12 to 18 in. high. Blooms profusely, having flowers of bright crimson in June to Sept. Ideal for cutting. Likes a well drained, fairly rich soil in sun or part shade. Each 30c; 3 for 75c; 10 for \$2.00.

HIBISCUS—Mallow

Coccineus—A fine plant, where single specimens are desired. In summer, flowers of bright scarlet are borne on the tall stalks among the large, attractive, evenly spaced leaves. Are pretty planted in small groups on the lawn in a sunny position. Each 25c; 3 for 60c; 10 for \$1.75.

HOLLYHOCKS—Althea Rosea

Orange Prince—A beautiful and popular garden flower, having double orange blooms of great charm. Attains a height of 6 to 8 ft. A rich, well drained soil is best suited to this variety. You will like it. Each 25c; 3 for 60c; 10 for \$1.75.

HORMINUM

Pyrenaicum—A rock plant growing about 1 ft. high and having spikes of violet blue flowers. Leaves form rosettes. A distinct novelty. Does well in partial shade or sun in a good moist soil. Each 25c; 3 for 60c; 10 for \$1.75.

HYPERICUM—St. John's Wort

***Reptans**—A lovely rock plant of prostrate, trailing nature, having very large, soft yellow flowers, tinged with red in July and August. Thrives in ordinary sandy soil. Each 25c; 3 for 60c; 10 for \$1.75.

IBERIS—Candytuft

***Jucunda**—A fine, new plant for the rockery or edging. Grows 4 to 6 inches high, with very stiff spreading branches of beautiful steel blue foliage. In late spring and summer it is covered with a mass of delicate pink blooms. Very hardy and withstands heat well. Each 30c; 3 for 75c; 10 for \$2.00.

***Sempervirens**—A particularly fine rock plant, although suitable for margins of borders or edgings. Grows in a low evergreen clump about 6 inches high and in spring is covered with a sheet of white flowers. Likes a sunny position in any ordinary soil. Each 25c; 3 for 60c; 10 for \$1.75.

INULA—Feabane

Ensifolia—A perennial for edge of borders and for cutting. Has bright golden blossoms in July and August. The plant grows about 12 in. high and is of a bushy nature. Does well in any ordinary soil and in sunny position. Each 25c; 3 for 60c; 10 for \$1.75.

LATHYRUS—Perennial or Everlasting Pea

Latifolius, Mixed—(Hardy Sweet Pea)—A trailing plant suitable for growing on trellises, fences, etc. Thrives in ordinary rich soil in sunny position. Flowers are pink or white. Fine for cutting. Each 25c; 3 for 60c; 10 for \$1.75.

LAVANDULA—Lavender

Vera—A delightful, old-fashioned perennial having fragrant blue flowers in July and August. Likes a rather dry, medium soil and a sunny position. A compact bushy plant with lovely grey-green fragrant leaves. Height, 13 in. Suitable for border or rock. Each 20c; 3 for 50c; 10 for \$1.50.

LEONTOPODIUM—Edelweiss

Alpinum—A pretty plant with silvery white leaves. Star-like heads on 4 to 5 inch stems are clothed with a white wooly substance. Very distinctive, making it very desirable for rock gardens. Grows well in sun or partial shade. Each 25c; 3 for 60c; 10 for \$1.75.

LIATRIS—Blazing Star

Pychnostachya—(Kansas Gay Feather)—Very attractive and beautiful perennial having long spikes of rich purple flowers, 4 ft. high. Blooms in midsummer. Does well in ordinary garden soil in sun. Each 20c; 3 for 50c; 10 for \$1.50.

Spicata—Very similar in habit, except that the bloom spikes are more slender and the flowers are sparingly set on the spikes, so that each flower is more distinctive. Very pretty in the border planted in groups and used for cutting. Each 20c; 3 for 50c; 10 for \$1.50.

LINARIA—Toad Flax

Dalmatica—A border plant producing snapdragon-like yellow flowers. A bushy plant about 3 ft. high. Blooms from June to Oct. Thrives in ordinary loam and a sunny position. Each 20c; 3 for 50c; 10 for \$1.50.

LINUM—Flax

Flavum—An attractive and profusely blooming perennial suitable for border or rock garden. Grows 1 ft. high and has lemon yellow flowers from June to August. Grows in sandy or ordinary light, well drained soil and prefers sun. Each 25c; 3 for 60c; 10 for \$1.75.

***Flavum Compactum Nanum**—A rock plant having golden yellow flowers and dark green foliage. Same culture as for variety above. Height 6 in. Each 25c; 3 for 60c; 10 for \$1.75.

***Narbonense**—A fine plant for the rock garden. Has attractive foliage with a profusion of azure blue flowers, with white eye. Blooming period from June to Sept. Blooms stay on all day. Height, 2 ft. Each 25c; 3 for 60c; 10 for \$1.75.

Perenne—A beautiful border plant producing a profusion of pale blue flowers on upright stems 2 ft. high. A new crop of blooms every day. A very graceful and desirable plant. Each 20c; 3 for 50c; 10 for \$1.50.

LOBELIA—Indian Paintbrush

Cardinals (Cardinal Flower)—One of the most attractive of border plants. Also ideal for waterside. It requires a moist position in sun or part shade, to do well. Has rich, fiery cardinal flowers. Often producing 4 to 6 spikes, 24 to 30 inches high. Each 20c; 3 for 50c; 10 for \$1.50.

Syphilitica (Great Blue Lobelia)—Similar to above except flowers are blue, streaked with white. Requires same culture. Each 20c; 3 for 50c; 10 for \$1.50.

LUPINUS—Lupine

Polyphyllus Hybrid—A stately and beautiful perennial with elegant leaves and having 2 ft. spikes of blue, white or pink flowers. Requires a well drained, light or medium soil, preferably slightly acid. Blooms during June and July. Each 25c; 3 for 60c; 10 for \$1.75.

LYCHNIS—Catchfly

Viscaria—A very attractive plant, easily grown and is excellent for the border. Dense spikes of bright carmine flowers, blooming in June and July on 10 to 12 inch stems. Does well in any ordinary soil in sunny position. Each 20c; 3 for 50c; 10 for \$1.50.

MERTENSIA—Bluebells

Virginica—A plant that is lovely for the shady or partially shaded border. Blooms early in the spring, having blue bell-shaped flowers. Height 18 in. Very popular. Each 20c; 3 for 50c; 10 for \$1.50.

MYOSOTIS—Forget-me-not

***Alpestris**—A charming plant for the rock garden or edging. A spreading plant about 5 in. high having azure blue flowers during May and June. Likes any ordinary garden soil that is well drained and a sunny position. Each 20c; 3 for 50c; 10 for \$1.50.

***Palustris**—A prostrate, creeping rockery plant, which likes a moist shady position in ordinary soil. Has sky blue flowers with yellow eyes blooming from June to Oct. Height, 6 in. A most satisfactory variety. Each 20c; 3 for 50c; 10 for \$1.50.

NEPETA—Catmint

***Mussini**—A plant especially good for the rock garden. Of dwarf, compact nature, producing masses of blooms of lavender color all spring and intermittently during the summer. One of the most popular of rock plants or edging plants. Does well in ordinary soil that is well drained. Prefers sunny position. Height, 1 ft. Each 20c; 3 for 50c; 10 for \$1.50.

OENOTHERA—Evening Primrose

***Missouriensis**—A low growing plant used chiefly for the rock garden and border. Has beautiful large yellow flowers in abundance from June until August. Require a well drained, medium sandy soil and a sunny position. Each 25c; 3 for 60c; 10 for \$1.75.

Youngi—A fine plant for the hardy border; strong, erect stems with firm, shiny foliage, bearing numerous lemon-yellow flowers, 24 inches in height, June to August. Does well in any ordinary garden soil. Each 20c; 3 for 50c; 10 for \$1.50.

PAPAVER ORIENTALE—Oriental Poppy

Orientalis—The plant that gives that gorgeous display of large cup-shaped, bright orange-scarlet flowers in May and June. They do well in any well drained soil in sunny position. Each 20c; 3 for 50c; 10 for \$1.50.

PENTSTEMON—Beard Tongue

Barbata Praecox—Very hardy plant, growing a compact rosette of glossy leaves at crown with many bloom spikes 2 to 3 ft. in height. Colors range from fuschia purple through red to light pink, all summer. Good for border and cutting. Very easily grown. Each 20c; 3 for 50c; 10 for \$1.50.

Digitalis—A heavy type of plant with dark shiny leaves tinted with brown, producing flowers of white, tinted violet on 2 ft. spikes during summer. Does well in any good soil. Each 20c; 3 for 50c; 10 for \$1.50.

Grandiflorus—This plant is rapidly gaining popularity for its beautiful foliage and lavender flowers. Foliage is heavy, of a blue-green color, remaining in good condition all through the year. During June, large trumpet-shaped lavender flowers are borne on 2 to 3 ft. spikes, that are very erect, and need no staking. Any one can grow this beautiful plant as it is very hardy and withstands heat well. They like a sunny position in any well drained soil. Each 25c; 3 for 60c; 10 for \$1.75.

***Humilis**—A low growing plant, with very compact, dark green foliage, very beautiful in the rock garden. Bloom spikes 6 to 8 inches high, are covered with bright blue flowers in June. Very desirable for the rockery, the tufted foliage remaining green all season. Each 25c; 3 for 60c; 10 for \$1.75.

Heterophyllis "Blue Gem"—Lovely metallic-blue flowers on branching spikes 2 feet in height. from June to Sept. Excellent for the sunny border and cutting. Each 25c; 3 for 60c; 10 for \$1.75.

PHLOX DECUSSATA—Hardy Phlox

These hardy plants are the most effective and useful plants in the garden during the late summer months. Every one loves the brilliant colors in these Phlox. We offer those most liked and that grow easily in ordinary good soil.

Bridesmaid—White with crimson eye.

Fuerbrand—Brilliant orange scarlet.

Miss Lingard—(Phlox Suffraticosa)—This variety has beautiful, shiny green foliage and is absolutely free from disease. It blooms all summer with large heads of white flowers with faint pink shading in center.

Rhineland—Large flower heads of beautiful salmon pink on stout stems.

R. P. Struthers—Bright rosy carmine with claret-red eye.

Thor—A beautiful shade of deep salmon, overlaid with a scarlet glow, small red eye.

Von Hochberg—The best blood-red variety.

Any one variety of the above. Each 25c; 3 for 60c; 10 for \$1.75.

ONE EACH OF ABOVE (7 in all) \$1.50.

PHLOX DIVARICATA—Sweet William

Canadensis—One of our native species. Blooms in April and May with large fragrant, lavender-blue flowers in dense heads on 10 inch stems. Very desirable in wild garden or rockery in a shady moist position. Each 15c; 3 for 40c; 10 for \$1.00.

PHLOX SUBULATA—Moss Pinks

An early spring flowering type with pretty, moss-like evergreen foliage. During April and May the plant is hidden under the mass of bloom. Very good for the rockery, edging the border or carpeting.

***Alba**—Pure white flowers in April and May cover the compact plants. Does well in any good garden soil in a sunny position. Each 20c; 3 for 50c; 10 for \$1.50.

***Atropurpurea**—Plants have the same good compact, moss like foliage, covered with carmine-red flowers in early spring. Each 20c; 3 for 50c; 10 for \$1.50.

***Autumn Rose**—This is the newest in moss-pinks. In addition to spring blooms this new type produces an abundance of blooms again in the fall. Truly a prize for those looking for the best in new introductions. Foliage is evergreen and always neat. Each 25c; 3 for 60c; 10 for \$1.75.

***Lilacina**—A creeping variety completely covered with pale blue flowers in spring. Foliage remains green all year. A strong grower. Each 20c; 3 for 50c; 10 for \$1.50.

***Rosea**—A very compact grower with neat foliage remaining beautiful all year. Plants are covered in early spring with brilliant rose-pink flowers. Each 20c; 3 for 50c; 10 for \$1.50.

PHYSOTEGIA—False Dragon Head

Virginica—Handsome plants of easy culture for the sunny border. Flowers are delicate pink, borne on spikes 3 to 4 ft. high. Each 20c; 3 for 50c; 10 for \$1.50.

PLATYCODON—Balloon Flower

***Mariesi**—A dwarf species with broad thick foliage and large deep blue flowers on 12 inch stems, throughout the summer. Can supply in white. Suitable in the rock garden or front of border. Grows best in a deep well drained soil in sun. Each 20c; 3 for 50c; 10 for \$1.50.

PLUMBAGO—Leadwort

***Larpentae**—A most desirable plant for the low border or rock garden. Has compact, bushy, habit, growing 8 to 10 inches high and covered with deep blue flowers in late summer and fall. Some protection is required in winter. Likes any good soil. Each 20c; 3 for 50c; 10 for \$1.50.

POLEMONIUM—Jacobs Ladder

Coeruleum—A fine border plant that is full of color during May and June. Flowers are blue with a golden center, prettily spaced on full spikes 18 inches tall. Plant in sunny position in a well drained soil. Has very pretty lacey foliage. Each 25c; 3 for 60c; 10 for \$1.75.

Richardsonii—A more dwarf form of the **coeruleum**. Erect stems of sky-blue flowers on 12 inch stems in June and July. A fine plant in the front of the sunny border. Does well in a good, well drained soil in sun. Each 25c; 3 for 60c; 10 for \$1.75.

POTENTILLA—Cinquefoil

Single Hybrids, mixed—A pretty plant with strawberry-like leaves. Flowers, in shades of the richest colors, are borne on 18 inch stems in June and July. Useful in the sunny border. Plant in a well drained soil. Nice for cutting. Each 25c; 3 for 60c; 10 for \$1.75.

PRIMULA—Primrose

***Veris, Hybrids**—One of the finest plants for the rock garden. The many colors are very brilliant, ranging in colors of lilac, purple, violet, buff, orange, salmon yellow and rich reds. They bloom heavily during May and June. This variety is very hardy and easily grown. Requires a shady position in a moist well drained soil. Each 25c; 3 for 60c; 10 for \$1.75.

PRUNELLA—Self-heal

***Grandiflora**—A dwarf growing plant with purple salvia-like flowers on 6 inch stems. The foliage is evergreen and neat, very pretty for rock garden or edging. Likes a moist, sandy soil. Each 20c; 3 for 50c; 10 for \$1.50.

PYRETHRUM—Painted Daisy

One of the finest plants for the border and cutting. They grow in neat compact tufts of finely cut foliage, which is very attractive. In May and June they produce beautiful shades of pink, red and white daisy-like flowers on 2 ft. stems. Extremely hardy and do well in any ordinary well drained soil.

Atrosanguineum—This variety bears large, single flowers on 20 inch stems of the dark red shades. Each 25c; 3 for 60c; 10 for \$1.75.

James Kelwayi—This strain has flowers of the dark blood-red color. Each 25c; 3 for 60c; 10 for \$1.75.

Roseum, single mixed—Flowers ranging in colors of deep to light pink and white. Each 20c; 3 for 50c; 10 for \$1.50.

Roseum, double mixed—These flowers are bred to produce a large per cent of double flowers of white and various pink shades. Each 25c; 3 for 60c; 10 for \$1.75.

RUDBECKIA—Coneflower

Golden Glow—A popular hardy plant, producing masses of large double yellow flowers on 6 ft. stems in late summer. Grow in sun and suitable for background in border and cutting. Each 20c; 3 for 50c; 10 for \$1.50.

Purpurea—(Purple coneflower) An excellent plant for grouping in masses of shrubbery. Flowers are large reddish purple with large cone-shaped center of brown; borne on 2 ft. stems. Each 20c; 3 for 50c; 10 for \$1.50.

SALVIA—Meadow Sage

Azurea Pitcheri—Very hardy plants of grey-green foliage. Pretty sky-blue flowers are borne on tall spikes 3 to 4 ft. high during Sept. and Oct. The best plant being offered for late blooming when most bloom is scarce. They like a sunny position in any well drained soil. Each 25c; 3 for 60c; 10 for \$1.75.

Pratensis Atro-Violacea—Plants have very large broad leaves which grow flat on ground. Dark violet-blue flowers are borne on 16 to 18 inch spikes in June. Very thrifty plant that does well in sunny border. Each 20c; 3 for 50c; 10 for \$1.50.

SANGUINARIA—Bloodroot

***Canadensis**—A native plant, prized for its early flowers, followed by handsome leaves which remain throughout the summer. Very early in the spring the flowers appear on 4 to 6 inch stems, of a very waxy white. Nice for the wild garden and rockery and require a moist spot in partial shade. Each 15c; 3 for 40c; 10 for \$1.00.

SAPONARIA—Soapwort

***Ocymoides splendens**—An easily grown plant, suitable for the rock garden and margins of sunny borders. Plants are compact, yet trailing, forming the shape of a mound. Flowers are rosy pink, produced in great quantities just above the foliage in late May and June. Does well in most any good soil. Each 20c; 3 for 50c; 10 for \$1.50.

SAXIFRAGA—Rock-foil

***Cordifolia**—A dignified beauty for the rock or alpine garden. Broad, leathery leaves of a dull shade of copper green, form rosettes close to the ground. Ball-shaped rose colored flowers stand out on thick short stems in early April. Requires a moist soil in partial shade. Each 30c; 3 for 75c; 10 for \$2.00.

SCABIOSA—Pin Cushion Flower

Caucausia—Charming perennial for the border and cutting. Flowers are a very charming shade of lavender on 18 to 20 inch stems and bloom in June continuing until September. Plant in the sunny border in a well drained soil. One of the finest for cutting. Each 25c; 3 for 60c; 10 for \$1.75.

Japonica—A semi-bushy plant, bearing small lavender blossoms from July to September on 2 ft. stems. A biennial, but very valuable for its mass of color in the border. Plant in a sunny position in any good soil. Good for cutting. Each 20c; 3 for 50c; 10 for \$1.50.

Isaac House Hybrid—A striking new strain for the border. Rugged in habit and a free bloomer. Flowers are extra large of perfect form and richly shaded with amethyst blue and tones of clear lavender. Very pretty in the border throughout the summer. Each 30c; 3 for 75c 10 for \$2.00.

SEDUM—Stonecrop

Effective little dwarf plants for color contrasts in the rockery. They will thrive in the sunny spot of the rock garden, and by trailing around and among the rocks, they give an established appearance. All are easy to grow and demand little attention. Will grow where other plants will not do well.

***Album Murale**—A red leaved form of Album, having linear oblong leaves on brown stems. The white flowers have a pink center. Each 20c; 3 for 50c; 10 for \$1.50.

***Album Purpureum**—Leaves are a rich mahogany red, holding this color throughout the year, otherwise similar in shape and flowers. Each 20c; 3 for 50c; 10 for \$1.50.

***Altissimum**—Thick, slender gray leaves on 6 inch stems that start out recumbent and then grow upright. Flowers are greenish-yellow, borne in midsummer. Very attractive plant. Each 20c; 3 for 50c; 10 for \$1.50.

***Coloniensis**—One of the Hispanicum group. Forms dense mats of glaucous blue foliage a little more than an inch high. Very hardy and its blue foliage is unusual. Each 20c; 3 for 50c; 10 for \$1.50.

***Divergens**—Green, tinted beads on red stems 6 to 8 inches long, that creep. Flowers are yellow. Very unusual. Each 20c; 3 for 50c; 10 for \$1.50.

***Spurium**—A creeping variety with leaves in terminal rosettes. Turns a blood red color in winter. Pink flowers in summer on 2 to 3 inch stems. Each 20c; 3 for 50c; 10 for \$1.50.

Spectabile—An erect growing variety. Robust and glaucous; stems 12 to 16 inches high, tipped with pink flowers in broad, flat topped cymes. Suitable for a taller plant in the rockery or low border. Each 20c; 3 for 50c; 10 for \$1.50.

SEMPERVIVUM—Houseleek

***Globiferum**—Hairy, globe-shaped rosettes of gray green that darken in the autumn to a dull bronze. Make a compact cluster that fits in nicely among rocks. Each 20c; 3 for 50c; 10 for \$1.50.

***Tectorum**—(Hen and chickens)—The popular old favorite with a broad rosette of bright green in the spring changing to a dull copper green. The little 'chicks' cluster, collar-like around the large rosette. Each 20c; 3 for 50c; 10 for \$1.50.

SILENE—Catchfly

***Schafta**—Charming border or rock plant, growing from 4 to 6 in. high with masses of bright pink flowers from July to Sept. Suitable for edging the sunny border or rock garden. Prefers ordinary good soil. Each 25c; 3 for 60c; 10 for \$1.75.

SHASTA DAISY—(See Chrysanthemum)

SPIREA—Meadow-sweet

Filipendula—Very handsome perennial with the general appearance of the Astilbe. The plant has beautiful fern-like foliage at base. Flowers are borne in graceful, feathery plumes on 20 inch stems, during June and July. Flowers are creamy white. Does well in any good soil in the sunny border. Each 25c; 3 for 60c; 10 for \$1.75.

STACHYS—Woundwort

***Lanata**—A fine perennial for edging and rock garden. Is valued for its soft silvery foliage. Flowers appear in June of a lavender-pink color, but are considered useless. Thrives in any ordinary soil. Each 20c; 3 for 50c; 10 for \$1.50.

STATICE—Sea Lavender

Latifolia—A valuable plant for the border. Narrow leathery leaves grow in clumps close to the ground. Immense heads of purplish-blue minute flowers are borne on erect stems 18 to 20 inches in midsummer. Are especially good for cutting and drying. Require a sandy soil well drained. Each 25c; 3 for 60c; 10 for \$1.75.

STOKESIA—Cornflower Aster

Cyanea—Fine plant for the border and very desirable for cutting. Beautiful light blue flowers are produced profusely in late summer and early fall on 18 inch stems. Valuable, as it blooms late in summer when most bloom is scarce. Grows well in ordinary good soil. Each 20c; 3 for 50c; 10 for \$1.50.

THALICTRUM—Meadow Rue

Dipterocarpum—A most charming perennial, prized for its unusual flowers as well as the beautiful foliage which is highly decorative. Three foot slender stems bear panicles of bright lavender flowers, brightened with the lemon yellow stamens and anthers produced in graceful sprays during July and August. Does well in sun or shade in a good moist, well drained soil. Each 30c; 3 for 75c; 10 for \$2.00.

Adiantifolium—A fine hardy plant that is highly prized for its elegant, finely divided foliage, which is used for mixing with cut flowers. Miniature white flowers are born in feathery clusters in June. They do well in sun or shade in a moist well drained soil. Each 25c; 3 for 60c; 10 for \$1.75.

THERMOPSIS

Caroliniana—Suitable for the sunny border. A lovely lupine-like plant with rich green foliage, growing about 2 ft. Flowers are produced on spikes 6 to 12 inches long, which appear like a yellow lupine. They grow well in any well drained soil. Each 25c; 3 for 60c; 10 for \$1.75.

Montana—This plant is more dwarf, producing lemon yellow pea-shaped flowers on branching racemes. Blooms in midsummer and does well in the sunny border in any good soil. Each 25c; 3 for 60c; 10 for \$1.75.

THYMUS—Thyme

***Coccineus**—Very dwarf plant that is prized for its neat creeping habit. Can be used in rock garden or margins of sunny bank. Foliage is a dark reddish green color and very fragrant. Flowers are crimson which completely cover the plant in June and July. Will grow in partial shade or sun in a good loose moist soil. Each 25c; 3 for 60c; 10 for \$1.75.

***Serpyllum**—(Wild Thyme) This tidy little plant is prized for its fragrant foliage and neat growing habit. Flowers are pink, closely set on the creeping foliage, in June and July. Requires sun or partial shade in any good loose, moist soil. Each 25c; 3 for 60c; 10 for \$1.75.

Serpyllum album—A form of the serpyllum with the exception the flowers are white. A wonderful plant where a creeping plant is wanted. The foliage is always attractive and fragrant. Each 20c; 3 for 50c; 10 for \$1.50.

TRILLIUM—Wake Robin

Recurvatum—A native plant flowering early in spring. Leaves are borne in a whorl on 14 inch stems and flowers are three petal-like segments of a dark purple color produced at top of plant. They like a shady position in the wild garden, or border. Each 15c; 3 for 40c; 10 for \$1.00.

Grandiflorum—The flowers of this plant are of a waxy white and very broad. A fine plant for the wild garden or low border, requiring light shade in good loose soil. Each 15c; 3 for 40c; 10 for \$1.00.

TRITOMA—Red Hot Poker

A very popular plant for garden decoration. They have long, narrow, grassy leaves and bear their drooping, tubular flowers in dense spikes on long stems 24 to 30 inches in height. They are ideal in the border and can be used for cutting throughout the summer. Require good loose fertile soil in sunny location. Must have protection in winter.

Hybrida "Express"—An early flowering sort, ranging from yellow to crimson-orange in June to August. Each 25c; 3 for 60c; 10 for \$1.75.

Perpetual Flowering Hybrid—Very vigorous hybrids that bloom freely. Flowers are produced on tall stems in colors ranging from orange to red. Excellent for cutting. Each 25c; 3 for 60c; 10 for \$1.75.

Pfitzeri—A fine plant for the border and cutting. Flowers are of a rich scarlet color, borne on long spikes, blooming in late summer to October. Each 25c; 3 for 60c; 10 for \$1.75.

TROLLIUS—Globe Flower

Ledebouri—This plant is unexcelled for its beauty. A magnificent variety of a very deep orange color. Flowers are globe-shaped and borne on 18 to 20 inch stems in late summer. Require a rich soil in partial shade. Very pretty in the border. Each 30c; 3 for 75c; 10 for \$2.00.

Ledebourii 'Golden Queen'—A very pretty plant, although similar to the above, it blooms later in the summer. Flowers of a deeper orange color are borne on tall stems. Very valuable for cutting. Give them a moist, partial shady location in the border. Each 30c; 3 for 75c; 10 for \$2.00.

TUNICA—Coat Flower

***Saxifraga**—A pretty dwarf with grass like foliage. Throughout the early summer it is covered with misty pink flowers. Useful in rock garden or edging the border. Will do well in any ordinary soil. Each 20c; 3 for 50c; 10 for \$1.50.

VALERIANA—Garden Heliotrope

***Coccinea**—A splendid plant for bold effects in the rock garden or low border. Showy heads of old rose flowers in umbels are produced on 12 inch stems just above the rich green foliage. They are very beautiful grouped in the border. Require a sunny position in any good garden soil, not too acid, as they prefer lime. Each 25c; 3 for 60c; 10 for \$1.75.

VERBASCUM—Mullein

Phoeniceum Hybrids—Hardy perennial plants of stately growth, suitable for the border. Leaves are wooly and grow very close to ground. Flowers are produced on branched spikes 18 inches high, in colors of white, pink, rose, purple, and mauve. They require a light garden soil in sun. Very good for cutting. Each 20c; 3 for 50c; 10 for \$1.50.

VERBENA—Hardy

***Venosa**—Trailing plant much used for its carpeting habit on banks or slopes; also used in the rockery. Flowers of a lavender-pink color are produced all summer. Does well in sun or light shade, in most any soil. Each 20c; 3 for 50c; 10 for \$1.50.

VERONICA—Speedwell

Beautiful hardy perennials that vary in height from a few inches to three feet and bear blue flowers in terminal spikes or racemes. Very showy in the border and rock gardens, and all are very easily grown in ordinary good soil in sunny position.

Amethystina—Rich amethyst-blue spikes, rising from tufts of dark green foliage. It makes a vivid spot of color on 1 ft. stems during June and July. Each 20c; 3 for 50c; 10 for \$1.50.

***Corymbosa Stricta**—A low growing plant of prostrate tufted foliage. Flowers of azure blue on dense plumes are produced on 6 to 8 inch spikes in midsummer. A new variety. Each 25c; 3 for 60c; 10 for \$1.75.

***Incana**—A gem for the rockery or low border, with its unusual contrast between foliage and flowers. Has narrow silver leaves in neat tufts, from which arise dainty spikes of violet-blue flowers. Very good for edging garden paths. Each 20c; 3 for 50c; 10 for \$1.50.

Longifolia Subsessilis—One of the handsomest blue-flowering plants. Very hardy and increases in strength and beauty each year. Spikes 2 ft. in height are completely covered with beautiful blue flowers in July and August. Fine for cutting and one of the best plants for the hardy border. Does well in any good soil. Each 30c; 3 for 75c; 10 for \$2.00.

***Prostrata**—An early blooming creeper covered with light blue flowers on prostrate green foliage in May. Does well in full sun among the rocks. Each 20c; 3 for 50c; 10 for \$1.50.

***Repens**—A pretty little alpine which forms small clumps of very dwarf foliage. In spring it is studded with pale blue dots of flowers. Should be planted in well drained soil among the rocks. Each 20c; 3 for 50c; 10 for \$1.50.

***Rupestris**—A fine rock plant growing 2 to 3 in. high; thickly matted, dark green foliage, hidden in May and June under a cloud of bright blue flowers. Each 20c; 3 for 50c; 10 for \$1.50.

Spicata "Dwarf Blue"—Very fine variety for the low border. Plants grow compact and have very dark green foliage. Each plant grows many spikes of intense blue flowers 8 to 12 inches high in summer. Any ordinary good soil in sun is satisfactory. Each 20c; 3 for 50c; 10 for \$1.50.

Spicata Rosea—A much branched variety that bears pink flowers. Treat same as 'Dwarf Blue'. Each 20c; 3 for 50c; 10 for \$1.50.

VIOLA—Tufted Pansy

Cornuta, mixed—One of the finest for bedding and rock gardens. Flowers are produced all summer on 4 to 6 inch stems in many colors and markings. Does well in sun or part shade in any good soil with moisture. Each 20c; 3 for 50c; 10 for \$1.50.

Odorata, sweet-violet—(Frey's Fragrant) Hardy little plants having very dark green leaves. Flowers of velvety purple, and sweet scented, are produced on 4 inch stems in spring and again in autumn. A pretty thing for the rock garden, or waterside in a shady location. Each 20c; 3 for 50c; 10 for \$1.50.

Pedata—(Bird foot Violet)—A very desirable plant for the wild or rock garden. This plant grows a mass of fine cut leaves on short stems at base, resembling a bird's foot. Pansy-like flowers are produced in quantities on 4 to 6 inch stems in colors of light blue to dark purple, sometimes 1 inch across. Requires a loose, moist soil in sun or partial shade. Each 20c; 3 for 50c; 10 for \$1.50.
